18th March 2010

Dear David,

Thank you for your letter and the marvellous donation for the Society, made possible by the generosity of Snowdon Tate Ltd. What a wonderful scheme you operate each Christmas, by donating a sum of money to charity, and giving every member of staff the chance to nominate their favourite charity to benefit. It also gives an opportunity to learn more about other charities which you may not have been aware of.

I am delighted that you have been successful this year, and chosen the Society to benefit for obvious reasons.

The money that you kindly donated will be used to fund much needed research into Neuroblastoma and to offer support to families with a child affected by the disease. Our hope is that very soon we will be able to offer more effective treatment and ultimately a cure for these very brave little children.

From donations received by the Society, about 95% goes directly into our research, which is very high when compared with many other charities, as all our non-medical Trustees and helpers are volunteers.

Best wishes to everyone at Snowdon Tate Ltd and thank you all so much for your valued support.

Kind regards,

Mr D Sneesby

Neuroblastoma is a rare aggressive childhood cancer. About 100 children are diagnosed in the UK each year. The Society works exclusively for these children in raising funds for British research into the disease, and offering information and support to families affected by neuroblastoma.
